A Fatal Mistake.

Physicians make no more fatal mistake than when they inform patients that nervous heart troubles come from the stomach and are of little consequence. Dr. Franklin Miles, the noted Indiana specialist, has proven the contrary in his new book on "Heart Disease," which may be had free at J. W. Gayle's who guarantees and recommends Dr. Miles' unequalled New Heart Cure, which has the largest sale of any heart remedy in the world. It cures nervous and organic heart disease, short breath, fluttering, palp or tenderness in the side, arm or shoulder, irregular pulse, blinding, numbing, dizzy, etc. His Restorative Nervine cures, headache, fits, etc.

Zillipai.

Welcome to the sunshine.

Dudley Beckley is very ill at this writing.

Rev. J. A. Head, of Monterey, visited this community last week.

Hot The fiddler's keeping bachelor's hall; concluded he can't find a help-mate.

W. D. Duncan, who has been confined to his bed with la grippe, is out again.

Married—In this community last week, William T. Lands, of Henry county, to Miss Catherine Harlow. They have the well wishes of the scribe.

Died, the 26th, at his home, this community, John Moore, sr., after an illness of four weeks. He was born in Henry county, this State, Nov. 30th, 1803. He was born in a Democratic family and reared under a Democratic discipline, and voted for every Democratic candidate from Jackson to Cleveland. He joined the Baptist Church early in life, and was a faithful and devoted member so long as his health permitted him to attend his Church. When the final time had come, he resigned, and to the Lord's will, and crossed over the river, sustained by the love and faith he had in a Saviour's love. His death bed was made soft by a downy pillow by a Saviour's love. Life ebbed out calm and easy like sinking to sleep, borne away on the strong arms of a righteous Saviour. Outraged is his gain. Long may his memory live and induce others to follow his footsteps.

CLOSE OBSERVER.

How to Succeed.

This is the great problem of life which few satisfactorily solve. Some fail because of poor health, others want of luck, but the majority from inefficient grip. Many of these are nervous, irritable, changeable, easily get the blues and "take the spirits down to keep the spirits up," thus wasting money, time, opportunity and nerve force. There is nothing like the Restorative Nervine, discovered by the great specialist, Dr. Miles, to cure all nervous diseases, as headache, the blues, nervous prostration, sleeplessness, neuritis, St. Vitus' dance, fits, etc. Final bottles and fine book of testimonials free at J. W. Gayle's.

"The Midnight Alarm."

"The Midnight Alarm," a melodrama, will be produced at the Opera House. Its hero is a fireman, Harry Westmore, and its heroine is a little newsgirl known as Sparkie, who in the end, of course, turns out to be the person whom everyone is looking for. Gideon Tillwell, an old farmer just

arrived in New York, furnishes amusement with his quaint rustic ways, and aids in felling the arch scoundrel, Silas Caringford. Caringford is a big oil speculator, but at the time of the story is in financial straits. He plunges into crime to retrieve his fortune, and one of his dark deeds is to fire his own mansion for the insurance. The department responds gallantly, and the fire engine rushes across the stage at full tilt, drawn by a splendid team of horses. As the alarm is turned in at midnight and as much of the plot hinges upon the success or failure of Caringford's scheme, the reason for giving the play the name it carries is plain. Few dramas carry such varied and handsome stage setting. The East River wharf, with the giant Brooklyn Bridge in the shadowy distance, is the first scene, and is followed by charming glimpses of rural landscape in the third act, and some realistic New York scenes in the fourth and fifth.

At the Opera House Monday, April 4th.

Happy Homes.

Thousands of sad and desolate homes have been made happy by use of "Rose Buds," which have proven an absolute cure for the following diseases and their distressing symptoms, Ulceration, Congestion and Walling of the Womb, Ovarian tumors, Dropsy of the Womb, Suppressed Menstruation, Rupture at Childbirth or any complaint originating in diseases of the reproductive organs; whether from contagious diseases, heredity, tight lacing, overwork, excesses or miscarriages. One lady writes us that after suffering for ten years with Leucorrhoea or Whites, that one application entirely cured her, and furthermore, she suffers no more pain during the menstrual period. It is a wonderful regulator. "Rose Buds" are a simple harmless preparation, but wonderful in effect. The patient can apply it herself. No doctors' examination necessary, to which all modest women, especially young unmarried ladies, seriously object. From the first application, you will feel like a new woman. Price \$1.00 by mail, post-paid. THE LEBERETTE SPECIFIC CO., 339 Washington St., Boston, Mass.

For a number of years I have been subject to violent attacks of inflammatory rheumatism which generally lasted about two months. On the first of this month I was attacked in the knee and suffered severely for two days, when I procured a bottle of Chamberlain's Pain Balm and it relieved me almost instantly. I therefore most cheerfully recommend it to those who are similarly afflicted every where.—R. D. WHITELY, Martindale, N. C., February, 1888. Opera House Scrap.

After the performance of the Lexington Amateurs at the Opera House Tuesday night two of the Lexington boys were leaving the Opera House when one of them remarked that the orchestra which had furnished the music for the occasion was "rotten," which remark was overheard by a Frankfort young man, with a little too much steam up, and a row ensued in which the Frankfort man came out second best. The music was pretty tough, we admit, but as the acting of some of the Lexington boys, was about on a par with it, honors were even, and both of the boys should have said nothing about the matter. It is to be regretted that the disgraceful affair occurred, but when Lexington people want to complain of an article furnished by Frankfort they should be sure that they are offering a better one to the public at the same time.

High View Addition.

The Farmer's Bank has traded Mr. Mike Buttmer a farm in Henry county for fifty acres of land on High View at the west end of the Railroad bridge. The bank has had the land surveyed and laid off into building lots, and their is no prettier place anywhere about the city to erect a suburban residence. The bank will have the road leading up to the hill from the Boulevard greatly improved, and streets and alleys will be run through the land and graded off, so that quite a village may spring up there in the near future. Taxes will be very light over there, and the location is one of the most healthful to be found anywhere, and when the lots are placed on the market they should find a ready sale.

FRANKFORT ROUNDABOUT.

Issued at the post-office at Frankfort, Kentucky, as second-class matter, matter.

A. B. LEWIS, Editor and Publisher.

FRANKFORT, APR. 2, 1892.

Beats Building and Loan Associations.

Several weeks ago we announced that Mr. S. C. Bull, Superintendent of the First Presbyterian Church Sunday-school, on the first Sunday in September last, distributed nickles to the scholars and teachers of the school, which were to be traded upon until the first Sunday in March for the purpose of raising a fund to be used, one half for the benefit of the Leestown Mission school and the other half to go to the evangelist fund of the Church.

Reports were called for, on the second Sunday in March, from those who received the nickles and the following is the result: Out of eighty-eight persons who received nickles all but six reported, and the fund raised amounted to \$84.85. The amounts made by the individual members ranged from 20 cents to \$10.05. Miss Mamie Hawkins reported the largest amount and Miss Mamie Bull came next with \$5.20.

It is not often that a person can invest four dollars and forty cents and in six months receive a turn of eighty-four dollars and eighty-five cents.

It is wonderful how many ways can be discovered to turn a nickle over and make it double itself, and the children of the school found nearly all of them.

"A Woman's Will."

The new society drama, "A Woman's Will," written by Mr. J. Allen Darnaby, of Lexington, was presented at the Opera House in this city on Tuesday and Wednesday evenings, before large and fashionable audiences. The company is composed of good amateurs and the play moved smoothly, without the usual long and tiresome intermissions between acts. The respective parts were taken in a creditable manner by the other members of the company, but Miss Sallie Theobald, of this city, eclipsed them all, won every heart by the cute and sweet manner in which she rendered the part of Dolly Meng, and was frequently encored. She is a born little actress and has a bright future before her.

The company went from here to Nicholasville, where they gave an entertainment last night. To-night they will be in Danville, Monday night in Paris, Tuesday night in Winchester, Friday night in Mt. Sterling, Saturday night in Versailles, and Tuesday night week in Cynthiana.

Wild Bill in the Pen.

William Deal, better known as "Wild Bill," the Texas desperado and highwayman, who for so many years terrorized the whole west, was brought to this city from Knox county on Monday to serve a one year's term in the Penitentiary for shooting into a dwelling house. While in Lexington he was interviewed by a reporter of the Transcript as to his past history.

He said positively that he was the original Wild Bill from Texas and that he had appeared before many courts and been cleared on a plea of self-defense. When asked about the number of men that he had killed, he was very particular to make no definite remarks. He maintains that it was simply public sentiment that caused him to receive this first sentence to a state prison, yet it is well known that he has been instrumental in causing the death of seventeen men. He is evidently a bad man, a tough citizen, has eleven wounds on his body, and is to all appearances the man he represents himself to be. He is enjoying good health, is thirty-four years of age, weighs 154 pounds and is five feet, seven and three-fourths inches in height.

Lost a Leg.

A dispatch to the Cincinnati Commercial-Gazette from Nicholasville says that a singular accident befell Lee Higgins, a raftman of Breathitt county, near Tate's Creek, Valley View, last night, when he with his associates, landed a raft of 150 logs. The advance was of eleven rats. The cable had been thrown around a tree, when a link of the coil caught around Higgins' leg and amputated it four inches below the knee as skillfully as if it had been the work

of surgeons. He was placed in a flat-boat and taken to Valley View, where physicians went late last night, and left him comfortable this morning. Lee is a brother of Wesley Higgins, County Clerk of Breathitt, and was on his way to Frankfort.

To New Orleans.

On April 6, 7 and 8, the Kentucky Midland Railway will sell tickets to New Orleans and return at \$20.15. Limited to return April 12th, on account re-union of Confederate Veterans at New Orleans April 8th.

New Carrier.

We have a new carrier on the North Frankfort route, and he has not become thoroughly familiar with the location of all our subscribers in that part of the city. We hope that those who fail to get their papers will notify us so that the matter may be remedied.

New Church at Lawrenceburg.

The new Church which has been erected by the Methodist congregation at Lawrenceburg will be dedicated to-morrow morning. Rev. Thomas J. Todd, D. D., of Covington, formerly pastor of the Methodist Church in this city, will preach the dedicatory sermon.

Pure and Wholesome Quality.

Commends to public approval the California liquid laxative remedy, Syrup of Figs. It is pleasant to the taste and by acting gently on the kidneys, liver and bowels to cleanse the system effectually, it promotes the health and comfort of all who use it, and with millions it is the best and only remedy.

Kendall a Convict.

M. H. Kendall, ar., who killed A. J. Montgomery and wounded young Jarvis in Georgetown last August, together with three others convicted at the recent term of the Scott Circuit Court, was brought to the Penitentiary a few days ago. Kendall has a two years' term before him and is likely to be joined by one or two of his sons before his time is out.

Resigned.

Mr. Jas. G. Green, who for many years has been keeping the first toll-gate on the Georgetown pike, has resigned his position, and next week will remove to the place near Tunnel Hill, Hardin county, he traded with Mr. S. W. Paine for, and devote his time to raising fruit. He already has seventeen hundred fruit trees and several acres of grapes upon the place, all in bearing, and he hopes to make the business more profitable than his old position has been.

Mr. Charles McFerrord will succeed him as gate-keeper.

Deafness Can't be Cured.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that we cannot cure by taking F. J. CHENEY'S CURE. Send for circular, free.

A Postal Card Did It.

Mr. R. G. Elliott, a well-known and popular real estate and insurance man of Lexington, was arrested Monday by Deputy Marshal McCarthy on a warrant sworn out before Commissioner Chinn by E. R. Oder, charging him with using the mails for unlawful purposes. Elliott wrote a postal card to E. R. Oder, the insurance man at Cynthiana, notifying him that if he did not pay his rent he would have to take steps to put him out of his house.

Oder had been renting from Elliott and was out of the city at the time his rent was due, and when Elliott sent to the house for the amount due. Mrs. Oder simply informed the messenger that her husband was out of the city, and a few days after left herself to visit her father in Cynthiana. Not knowing the whereabouts of her husband, Mr. Elliott wrote the notice on a postal card, thinking she would receive the card and give it to her husband, which she did a few days afterwards, and he felt outraged, reported the case to the Commissioner and a warrant was issued at once. Oder had been in the house for a year and had been slow in paying up, allowing a check he gave Mr. Elliott for one month's rent to be protested, and Mr. Elliott was simply trying to protect himself, with no intention of violating the law. Dick Elliott is not that kind of a man.

The case has been set for trial before Commissioner Chinn on Tuesday.

Politeness Saved His Life.

The correspondent of the Danville Democrat in this city relates the following concerning a popular and well-known gentleman in this community.

Mr. Louis D. Craig, the present efficient clerk in Col. McDowell's office, was a Confederate soldier in the late napoleonic wars and had many narrow escapes, but he says the narrowest he ever had was in a New Orleans barber shop ten years after the war, and politeness saved his life then. He went into the shop and picked up a newspaper to read while waiting his turn, and becoming interested in some article he gave his turn to some other man who came in after him. The barber calmly adjusted the towel about the stranger's neck and lathered his face in the usual way, but instead of shaving him he cut his throat from ear to ear. The barber was crazy and his insanity had taken this way of showing itself. Craig says this courtesy shown the stranger saved his life, for the barber was not at all particular whose throat he cut, and he has never allowed himself to be shaved by a barber from that day to this.

Business College Changes.

Prof. E. B. Gulon, formerly principal and proprietor of the Washington (Pa.) Business College has purchased a joint interest in the Capital City Business College, and will take charge as its principal in a few days. Prof. Gulon is a graduate of St. James College, Md., and also of Yale, besides being a teacher of 15 years experience in his own and other business colleges in the east. He is competent in all branches of his calling, and his influence here will be shown as a teacher of business college branches, normal school work or in preparing young men for a classic course.

We solicit for him a welcome in our community.

Large Log Tide.

Judge W. L. Pence returned Sunday afternoon from a trip to Beattyville and reports that fully two thousand rafts of saw logs passed that point on Saturday, and as it required two men to operate each raft about four thousand mountaineers left their homes with the recent tide to bring logs to market. In some of the counties at the head-waters of the Kentucky all other business was suspended and even courts were adjourned in order to allow the timber men an opportunity to take advantage of the high water and make the run to this city or points on the river above.

Furnishing the Seed.

Mr. L. J. Cox has entered into contract with the Commissioner of Agriculture to furnish his department with twelve hundred bushels of pure white seed corn, and is now engaged in delivering the same. The corn will be distributed by the Commissioner to the farmers throughout the State.

The First in Years.

Two boats of Kentucky river canal coal arrived here yesterday morning, from Owsley county, the first in many years. Also in the forenoon, Frankfort drew her principal supply of coal from the headwaters of the Kentucky, and it was the best to be had. It is safe to say that there is now enough coal lying in the

bottom of the river—the boats having been lost in transit—to supply this city for years to come. In those days the boats were built upon the river banks, loaded with coal and brought out, as saw-logs now are, when a tide came. So dangerous was the trip down that many boats went to the bottom long before they reached the head of slack water. Those which did reach here were knocked to pieces when emptied of the coal and the lumber of which they were built was sold for a good price, and there are many houses standing to-day which were built of the same.

The coal which arrived here yesterday was brought by one of our local dealers, and it is likely to go off like hot cakes. When slack water is carried a little further up the river coal will be brought to this city out of the Kentucky Mountains at all seasons of the year and will doubtless again control the market.

Revenue Collection.

The following are the amounts of internal revenue collections by Deputy U. S. Collector L. P. Tarleton during the month of March: On whisky \$104,064.30; on tobacco, \$355.50. For the three quarters of the fiscal year ending March 31st, he has collected \$401,819.10. The collections are largely on the increase, as the amount paid in during the month of March was the largest since August, 1889.

A Great Misfortune.

The Richmond Climax says that Mrs. J. S. Minary, formerly Miss Lizzie Jett, of this city, has been stricken with paralysis at her home in St. Louis, Mo., and that her sister, Mrs. J. J. Brooks, of Richmond, is with her. This will be sad news to the many relatives and friends of Mrs. Minary in this city and county, who have not been informed of her great misfortune.

For years the editor of the *Burlington Junction (Mo.) Post* has been subject to cramp colic or fits of indigestion, which prostrated him for several hours and unfitted him for business for two or three days. For the past year he has been using Chamberlain's Colic, Cholera and Diarrhea Remedy whenever occasion required, and it has invariably given him prompt relief. 25 and 50 cent bottles for sale by J. W. Gayle, Druggist.

Candidates for Judge.

Should the Legislature create a judicial district composed of Franklin, Scott and Bourbon it is likely that each county will have a candidate for judge of the circuit court, as Judge Ira Julian, of this city, Gov. Jas. E. Cantrell, of Georgetown, and Hon. E. M. Dickson, of Paris, are mentioned in connection with the position.

Millinery and Notions.

The attention of the ladies is called to the fact that I have just opened a millinery and notion store at 332 Second street, where I will keep constantly on hand a full stock of goods in my line. Will also make dresses in the latest styles and with dispatch.

The distress signal was sounded from the whistle and the fire department took the steam engine down, but the flames were extinguished before they arrived.

Atkins' Patent Concave Tooth Dexter.
DIXIE'S FAVORITE. FOR THE WOODS OF THE SOUTH IT HAS NO EQUAL.

The patent by which this Saw is protected consists of a depression of the face of the cutting teeth through the center from point to base, thus removing all friction while in use, giving strength and stiffness to the teeth and increasing three-fold the durability of the "set." WE CHALLENGE THE WORLD to produce a Saw equalling the ATKINS PATENT CUTTING DEXTER.

PRICE: (Silver Steel, Including Handles, \$1.00 per foot. Special Steel, Without Handles, .75 per foot.

BEWARE OF IMITATIONS.

The large demand for the ATKINS PATENT TOOTH DEXTER Saw has led competitors to make inferior saws which they claim "as good as the Dexter." These imitation saws are made from a lower grade of steel, inferior workmanship, and without the patent concave tooth. Ask your hardware dealer for the "Atkins Dexter" and make no other. If the dealer will not order it for you, remit amount with order direct to us.

Don't Use Rubber Stamps on Circulars.

The Post-office Department has is-
sued orders that hereafter circulars
having anything printed on them by
a rubber stamp will have to be pre-
paid at the rates of first-class matter.
This order is based on the principle
that a stamp is nothing more or less
than writing, from the fact that it is
used as a pen is used, and the leg-
ends it produces are as individual
as those of the pen.

The Old Original Remedy Leads.

Sick people should not be deceived by
pretenders who talk about "Mi-
crobi," "germs," "bacilli," &c., to
sell their preparations, thus prevent-
ing people from buying the original
tested medicine. "Kadon's Microbe
Killer" is what you need. It is now,
and for years has been, making
more cures than all other remedies
combined. Read their advertisement
in this paper. Don't be deceived.

BRADFIELD'S FEMALE REGULATOR

CARLETONVILLE, April 20, 1898.
This will certify that two members of my
immediate family, after having suffered for
years from General Frequent irregularity
being treated without benefit by physicians,
were at last cured by the use of one bottle
of Bradfield's Female Regulator. Its
effect is truly wonderful. J. W. KENDALL.

valuable information on all female diseases.

When Charlemagne and his "Knights of
the Round Table" were making war on the
Saracens, in Africa, it frequently happened
that Knights on either side would fight in
single combat for the honor of their re-
spective armies. The Saracens had been,
for many years, the scourge—the dreaded
invaders—of Europe, and all waged war
against this common enemy.

But in these days the worst scourge that
threatens us, is that dread invader, Con-
sumption. Consumption fastens its hold upon its vic-
tims while they are unconscious of its ap-
proach. Dr. Pierce's Golden Medical Dis-
covery has cured thousands of cases of this
most fatal of maladies. But it must be
taken before the disease is too far advanced
in order to be effective. If taken in time,
and given a fair trial, it will cure, or money
paid for it will be refunded.

For Weak Lungs, Spitting of Blood, Short-
ness of Breath, Bronchitis, Asthma, severe
Coughs, and kindred affections, it is an un-
equalled remedy.

For all diseases that arise from a torpid
liver and impure blood, nothing can take the
place of Dr. Pierce's Golden Medical Dis-
covery. Nothing will, after you have seen what
it does. It prevents and cures by removing
the cause. It invigorates the liver, purifies
the blood, sharpens the appetite, improves
digestion, and builds up both strength and
flesh, when reduced below the standard of
health.

ered, as it is certain in its effects and does

Kendall's Spavin Cure.

DEAR S. J. KENDALL, May 2, '98.
Gentle—About three years ago I wrote to you
about a horse I owned who had a spavin. I sent
six bottles of your Kendall's Spavin Cure, and it
made a complete cure. I have recommended it to
others who have used it with like success.
Yours, ADAM E. BENDISER.

INDIAN, Warren Co., Va., June 22, 1898.
Dear S. J. Kendall: I must say that I once tried a bottle
of your Kendall's Spavin Cure on a three-year-old
colt, and it completely removed a bone spavin and
did not hurt the horse in removing it. The
horse is six or seven years old, very sound, and has
done hard work all the time.
Respectfully yours, E. KIMBOS BALBASTY.

Monthly Crop Report.

OFFICE OF COMMISSION OF AGRICULTURE, HORTICULTURE AND STATISTICS, FRANKFORT, KY., March 31, 1902. For the purpose of comparison a presentation, in condensed form, is made up from reports of correspondents from all over the State—from more than ninety counties—to March 28, 1902.

WHEAT.

The growing crop, which is of most interest now to the country at large, is that of wheat. The prospect for a fine crop at this time are very flattering, not only in our own State, but all over the land. Through the fall and first part of the winter the late sown wheat made very slow growth, but through the month of March the growth has been very fine. The freeze on the ninth inst., occurring about the same time of that of 1890, was very alarming, from the fact that the crop of that year was cut off fully one-half, but the weather being favorable since, and nothing unforeseen happens, the crop will be good—per cent. 92.

RYE.

The average is small; the prospects good—70 per cent.

BARLEY.

Has not been raised much for some years. The crop looks well; not much raised—40 per cent.

HEMP.

The breaking is backward on account of unfavorable weather. The acreage this year year will fall off considerably, from the fact that there is no money in the crop at present prices. The yield was a fair average, the lint very good—per cent. 60.

MILES.

This has been of interest of very great importance to our State, but the trade looks very blue at present. The very great depression of prices may be assignable to various causes, two of which are apparent. First, the very low price of cotton and sugar. Second, it is estimated that electricity has taken the place of one hundred thousand miles, which were employed in street car lines in the different towns and cities of the United States. The number of two-year old miles being fed is 10,875.

HORSE—STOCK.

Have wintered remarkably well—per cent. 102.

BEEF CATTLE.

Fully as many fed as usual, and somewhat better quality; a large per cent. will be fat early. The number put to sleep at the dairies will be fat early—per cent. 85.

HOGS.

Very little hog cholera is reported; the price not so good as last year, but better in proportion than the price of pork; there will be fully as many, if not more, for market this spring than usual—per cent. 104.

There will be a large corn crop

planted, as part of the hemp land will be planted in corn.

Oat crop hardly an average, will be sown late.

TOBACCO.

Judging from the great demand for seed, the crop will be very large. There has been sent out from this office an unusual amount of seed.

NICHOLAS McDOWELL, Commissioner.

Oh, What a Cough.

Will you heed the warning; the signal perhaps of the sure approach of the more terrible disease—Consumption? Ask yourself if you can afford, for the sake of saving 50c., to run the risk and do nothing for it. We know from experience that Shiloh's Cure will cure your cough. It never fails. This explains why more than a Million Bottles were sold the past year. It relieves cough and whooping cough at once. Mothers, do not be without it. For lame back, side or chest use Shiloh's Porous Plaster. Sold by J. W. GAYLE. 37

It Should Be Every House.

J. B. Wilson, 371 Clay St., Sharpshurg, Pa., says he will not be without Dr. King's New Discovery for Consumption, Coughs and Colds. That it cured his wife who was threatened with Pneumonia after an attack of "LaGrippe" when various other remedies and several physicians had done her no good. Robert Barber, of Goodspoor, Pa., claims Dr. King's New Discovery has done him more good than anything he ever used for Lung Trouble. Nothing like it. Try it. Free Trial Bottles at P. H. CAMPBELL'S Drug Store. Large bottles, 50c. and \$1.00.

John S. Edwards,

Of Adams, N. Y., makes the following
sworn statement: Kenyon & Thomas:
This is to certify that I know your
wonderful medicine, Dr. Hale's
Household Ointment, will do in cases
of pneumonia. Last winter my
mother, who is 75 years of age, was
sick unto death with pneumonia.
Both lungs were badly involved. The
attending physician said she must
die. As a last resort we commenced
using your Dr. Hale's Household
Ointment, applying it freely and
thoroughly to the chest, keeping the
lungs covered with hot flannels. She
soon began to improve and in twelve
hours the crisis was passed and she
was out of danger and is now well
and to-day. Your great remedy saved
her life.

Fast Machine Typesetting.

A piece of work was done in the
Democrat and Chronicle composing
room last Monday night which would
make the eyes of an old "print" who
will cling to the stick bug out like
a Bermuda onion. John S. Wolfe,
one of the operators on the linotype
machines with which the Democrat
and Chronicle composing-room was
equipped a few months ago, proved
himself to be very nimble-fingered
by setting 44,000 "ems" of straight
matter for Tuesday's paper. (This
is equal to the work of five average
journeymen compositors.) This feat
was performed in a typesetting
three-quarters hour of composition,
between 7 o'clock Monday night and
2:55 o'clock Tuesday morning.

This is not only the biggest record
that has been made thus far in this
office, but when all things are con-
sidered, it is equal to any record that
has ever been made on a typesetting
machine. The best record ever
made was that of an expert in the
employ of the Mergenthaler Com-
pany at Toledo, O., a few months
ago.

The expert's record in eight hours
was 40,000 ems, but it was made un-
der more favorable circumstances

than those which surrounded Mr.
Wolfe. The expert did not leave his
machine once during the eight hours,
all his copy being selected and
brought to him, and his matter being
carried to the stone for him. Then,
too, his type was nonpareil, loaded.
On the other hand, the record of Mr.
Wolfe was made with brevity type,
solid matter, the copy being taken as
tended to the metal pot, and was
away from his machine two or three
times. All these things being taken
into consideration, Mr. Wolfe's feat
is not very far behind the world's
record.—Rochester Democratic and
Chronicle.

Mr. Wm. H. Flowers, of Bowling,
Ala., one of the largest saw-mill men
in that State, has the following to say
about the Electropole: "The three
Electropoles I purchased in July
from Birmingham, Ala., were used on
my two daughters and myself. I am
seventy-seven years old and for more
than half a century have suffered
with Chronic Bronchitis accompanied
with a violent cough; of late years I
have had asthma, severe pains in my
back, shoulders and knees, and in-
deed I have been very much pro-
strated. After six months' use of the
Electropole I can report a decided
mitigation of all symptoms and a
gain of ten pounds in weight. Both
daughters, one suffering from Rheu-
matism and the other Asthma, are
much improved. Permit me to say,
in conclusion, I think the best evi-
dence of my appreciation of the
Electropole is by backing my judg-
ment with money." This letter was
written more than a year ago. Since
this time Mr. Flower has bought two
more Electropoles, so that the old
ones are worn out, but for other mem-
bers of the family. For particulars
